Dear guests,

we would like to inform you that we continue to modernize our resort and in the course of this, some indoor and outdoor areas will be technically replaced to be made even more attractive.

1. RESTORATION OF THE TECHNICAL SYSTEM OF THE INDOOR SWIMMING POOL

From Monday, April 20th, 2020 up to Friday, May 29th, 2020 / normal operation from Saturday, May 30th 2020 (At Pentecost)

The Rhön Park Hotel Aktiv Resort renews its filter technology in the swimming pool area Rother Lagune to avoid an acute failure. In the course of the modernization, the Whirliegen in the adventure pool are renewed to guarantee new water experiences. These foresighted work ensures sustainability and enables long-term operability of our swimming pool.

The good news for you: there will be no construction noise. During this time you can use the outdoor pool and the all-weather pool as usual. As well you can use the Sauna World without restrictions. Also the changing rooms can be used; all of these areas are not affected by the Remediation.

As a courtesy, we offer all guests a price advantage of 20% on every booking (even on those already made) in the relevant period.

In addition, every guest receives a small gift surprise on site.

Also guests can cancel their vacation free of charge.

MODERNIZATION OF SUB AREAS OF RHÖN PARK HOTELS ACTIVE RESORT 2020/2021
2. PROGRESS OF THE RHÖNARENA AND MODERNIZATION OF „RUDIS ADVENTURE LAND“ from June to August 2020

In 2020 preparations will start for a second entertainment Hall next to Rudi’s adventure land, called RhönArena. A 500 square meter site is being created with modern entertainment (digital game worlds) and climbing walls. A new restaurant with 120 seats will also be part of the RhönArena. We will start preparations in June 2020 for laying the infrastructure. That means:

During this period „Rudi’s Adventure Land“ is moving to the Family Fun Meadow. We keep everything ready in a huge, airy tent, that will ensure a holiday. A modern bowling lane will also be installed and will be ready for use from August 2020.

The minigolf course will no longer be available from January 2020, but will be replaced in a modern way, which will be playable all year round and also in the dark. This is visually adapted to the Rhön landscape. Completion is expected in 2021.

3. MODIFICATIONS IN THE AREA OF „ANIMATION“

The animation program is available from January 1st, 2020 from 10 a.m. to 12.30 p.m. and from 2 p.m. to 4 p.m. and also in the context of selected (evening) events. There is no animation on Sundays.

We thank you for your understanding and are available for further questions at any time.

Sunny greetings from the Rhön!

Ben Baars
